

Pierce Bringhurst

**** S **** E Salt Lake City, UT

piercebring@gmail.com

(**) ** - **

Education

University of Utah Expected graduation: December 2021

Bachelor of Science in Computer Science / Minor in French

Cumulative GPA (4.0 scale): 3.74

Projects

.NET Messaging App:

- Built a real-time messaging application in the .NET stack using the SignalR library

RSA Console App:

- Wrote a console app in Python for secure messaging with RSA encryption

Slack/GitHub Integration:

- Designed and implemented a Slack app which integrated with GitHub allowing the Design System team at Pluralsight to post issues directly to their GitHub repository from within Slack
- Built with NodeJS, Express.js framework, and PostgreSQL and implemented OAuth protocol

SQL Database and Backend Server:

- Designed an SQL database for a Canvas-like learning management system and a .NET web server that generated queries to the database using LINQ

Resume Website:

- Used Angular to build a resume website at piercebringhurst.com to showcase front-end skills
- Hosted with AWS

Skills

Languages: C#, Java, Python, Javascript, SQL, NodeJS

Webwork: JQuery, AJAX, HTML, CSS, Bootstrap, ASP.NET Core, EF Core, Selenium, LINQ, Angular
